

Service Providers DDA Dream Package

Portable DDA Ultimate Package for NDT Service Providers

Vidisco offers a unique package for busy service providers who need an all inclusive, stable and complete DDA solution to answer versatile requirements. With a two Imagers combination package – the finest results in a wide array of possible projects become easier than ever.

- ✦ Ensure top flexibility on-site with a unique combination of Imagers
- ✦ Applicable for a variety of clients and projects

Use Vidisco's know-how and material to explore additional options in:

- ✦ Pipes and welds inspections
- ✦ Cast parts
- ✦ Construction sites
- ✦ Infrastructure maintenance and more...

Both DDAs in this package have unique qualities which complement and complete each other. The rugged FlashX Pro is a true work horse with a large imaging area and the highest quality images possible. The BoltX Pro completes the need for a smaller, light-weight Imager at times, while bringing in the fine resolution of the 75 µm detector. The portable x-ray (pulsed) source and custom accessories make the work easy, cost-efficient and really put technology in service.

Vidisco Solutions

On-Site, Immediate Results with Minimal Effort
